

GREATER NOIDA, UTTAR PRADESH

SUMMER INTERNSHIP PRESENTATION

Web Development Internship

Undertaken at Codec Technologies Pvt. Ltd.

SUBMITTED BY

Soumya Singh

ENROLLMENT NUMBER

25SCS1003002659

PROGRAM

B.Tech. — Computer Science & Engineering

SEMESTER

3rd Semester

HOST ORGANIZATION

Codec Technologies Pvt. Ltd.

Candidate & Program Overview

Candidate Details

STUDENT NAME

Soumya Singh

UNIVERSITY

IILM University

BATCH / ROLL

2CSE34 | 25SCS1003002659

DEGREE

B.Tech (Computer Science & Engineering)

ACADEMIC YEAR

2nd Year

Internship Profile

ORGANIZATION

Codec Technologies Pvt. Ltd.

DESIGNATION

Web Developer Intern

LOCATION & MODE

Pan India, Hybrid

DURATION

01/07/2026 - 31/07/2026 (1 Month)

PROGRAM

AICTE & ICAC Approved Internship

AICTE ID

CORPORATE6759d549ce59e1733940553

Organization Profile: Codec Technologies

Codec Technologies Pvt. Ltd. is a global IT and business consultancy platform, empowering learners and connecting diverse talent to create meaningful career opportunities across 27+ countries.

AICTE & National Internship Portal

Internship conducted as part of a 1-Month AICTE & ICAC approved program listed on the National Internship Portal.

Google for Education Partner

Codec Technologies is recognized as a Google for Education Partner, supporting industry-aligned learning.

ISO 9001:2015 Certified

Operates under ISO 9001:2015 certification, reflecting structured quality standards across its programs.

Focus: Applied Web Development

Delivers dedicated IT consultancy and project-based internships, bridging academic learning with industry practice.

Internship Objectives & Scope

The Learning Gap

As a 2nd-year student, classroom coursework introduces programming fundamentals but offers limited hands-on exposure to building complete, real-world web interfaces from scratch — from layout and styling to interactive logic and deployment.

The Internship Scope

This internship covers the practical, end-to-end process of frontend web development: structuring pages with HTML, styling with CSS, adding interactivity with JavaScript, and shipping projects that reflect real-world portfolio quality.

Core Learning Objectives

HTML & CSS Foundations

Build semantic, well-structured page layouts and apply modern CSS styling, flexbox and grid.

JavaScript Logic

Implement DOM manipulation, event handling, and functional logic for interactive web apps.

Responsive Design

Design interfaces that adapt cleanly across desktop, tablet, and mobile screen sizes.

Version Control & Deployment

Manage source code with Git/GitHub and publish finished projects for public access.

Technologies & Tools Used

Languages

HTML5, CSS3, JavaScript (ES6)

Editor & Workflow

Visual Studio Code, Live Server

Version Control

Git, GitHub

Deployment

GitHub Pages / static hosting

Project 1: Web Calculator App

Frontend Project 01

Interactive Calculator

Overview

A fully functional web-based calculator built to strengthen core JavaScript logic and DOM manipulation skills, handling arithmetic operations through a clean, responsive interface.

Key Features

- ✓ Real-time input display with click and keyboard support
- ✓ Core arithmetic operations: add, subtract, multiply, divide
- ✓ Clear/reset and error-handling for invalid expressions
- ✓ Responsive layout styled with CSS Flexbox/Grid

Skills Demonstrated: JavaScript logic • DOM manipulation • Event handling • UI styling

Project 2: Personal Portfolio Website

Overview

A personal portfolio website showcasing profile details, skills, and projects, designed to present a professional online presence and serve as a live demonstration of frontend capabilities.

Key Features

- ✓ Sections for About, Skills, Projects, and Contact
- ✓ Responsive, mobile-friendly multi-section layout
- ✓ Custom styling with CSS for a clean visual identity
- ✓ Published and version-controlled on GitHub

Skills Demonstrated: Responsive design • Semantic HTML • CSS styling • Git/GitHub deployment

Internship Timeline (Week 1 to 4)

Key Skills Demonstrated

Semantic HTML & CSS

Structured, accessible page markup styled with modern CSS layout techniques (Flexbox/Grid).

JavaScript Programming

Wrote functional, event-driven JavaScript to power interactive calculator logic.

Responsive UI Design

Ensured both projects adapt cleanly across desktop and mobile viewports.

Visual & UX Styling

Applied consistent visual design and layout choices for a polished user experience.

Git & GitHub Workflow

Used version control to track changes and publish both projects publicly.

Independent Project Delivery

Took projects from concept to a completed, demo-ready deliverable within the internship timeline.

Certification & Official Verification

Verification Metric	Official Record / Credential Details
Internship Title	Web Developer Intern — 1 Month AICTE & ICAC Approved Internship
Issuing Organization	Codec Technologies Pvt. Ltd. (ISO 9001:2015 Certified)
Academic Patronage	AICTE National Internship Portal
Duration	01/07/2026 – 31/07/2026
AICTE ID	CORPORATE6759d549ce59e1733940553
Offer Letter / NCS ID	E19E86-0116588288923
Program Manager	Dr. Anurag Shrivastava

Certificate of Internship

CONCLUSION & ACKNOWLEDGEMENT

Thank You

The one-month Web Developer Internship at Codec Technologies Pvt. Ltd. provided valuable, industry-aligned exposure to web development and hybrid professional working practices, directly complementing the B.Tech CSE curriculum at IILM University, Greater Noida.

I sincerely thank Dr. Anurag Shrivastava and the team at Codec Technologies for their guidance and mentorship, and I am grateful to my faculty at IILM University, Greater Noida for their continued academic support throughout this internship.
